Microeconomic

the two midterms out of the final! [Note even if you personally do not get out of the final, you should cheer for those that do, since the median will be lower on the final, causing more points to be added to everyone's score on this important test!]. I do require that those getting out of the final i.e. r/r! o

over the problem and see why the method you employed worked].

7) Can you explain it to others? [If you can explain it to others, perhaps in a study group, you will know it].

8) Have you worked on your self-confidence? [Before you look up the answer to a question, assign a "confidence factor" to your work...on a scale of 1-10 how confident are you that you are right? Be honest with yourself. The more often you prove yourself right, the less test anxiety you will have].

9) Do you cram for tests? fDon't. It will not work in economics, and perhaps not in any analytical field. Study regularly, with greater review being the only difference in your study habits prior to a test. Cramming for tests leads to fatigue, test anxiety, and stupid mistakes. Get plenty of sleep. Treat h e t sx

IV. CONSUMER CHOICE AND DEMAND (review S 6.1 and S 6.2, class notes)

Note: we will do this material a bit
